

For all children, parents and educators of Ukraine.

In the kindergarten we celebrated the Feast of Lights and remembered the children, parents and educators from Ukraine.

We made boats
and launched
them down a
nearby stream
in support.

●

We wished that the boats would bring them peace so that they could play happily and freely again.

*As a sign of support
and hope, we danced
in the forest clearing.*

May the boats fill
the children's joys
and joys so that
they can sail
freely around
their homeland
again.

We wish you all the best!

Children and employees of the Kindergarten Vrtiljak from Slovenia.
